

Alaska Building Maintenance is committed to minimising its impact on our environment and maximise the effective use of resources. We strive to achieve this by increasing communication and awareness of our efforts in accordance with this policy and fostering responsible environmental behaviour amongst staff, volunteers, and users at all levels.

We are committed not only to complying with applicable law in all Our operations but to minimise risks and impacts through the development of robust and documented systems to implement, measure, monitor, and disseminate excellent environmental performance both within Our operations and to the broader community. Our environmental and sustainability philosophy is to integrate sustainable development into all Our activities and to establish and promote sound environmental practice in our operations.

We are committed to ensuring that all Our employees understand, are provided with appropriate resources, and are supported in the recognition of their responsibility to the environment. All Our operational activities are focused on the achievement of a balance between client-based requirements, effectiveness of operations and sound environmental management to achieve a positive and holistic outcome.

We commit to minimising its impact on our environment through:

- Providing a safe and healthful workplace
- Having an environmentally sustainable aware culture, where responsibility is assigned and understood
- Being an environmentally responsible neighbour in our community
- Conserving natural resources by reusing and recycling
- Using, in our own operations, processes that do not adversely affect the environment
- Taking steps to improve environmental performance continually
- Establishing an operational framework that establishes objectives and benchmark targets of environmental operations
- Facilitates the implementation of control measures that mitigate or eliminate such issues to benchmark and objective standards
- Conducting audits, evaluations, and self-assessments of the implementation of this policy
- Communicating with and involving all employees in the achievement of environmental objectives and compliance
- Working with suppliers who promote sound environmental practices and
- Enhancing awareness among our employees, volunteers, and users – educating and motivating them to act in an environmentally responsible manner.

Shane Rettke

Chief Executive Officer
